

## **A Magical Place of Attracting Abundance**

*By Rene Bastarache, CI*

You have specific things that you'd like to attract to your life? This script utilizes your strong imagination, emotions and focus to increase what you want.

### **Script Begins Here:**

Imagine yourself lying on a hammock under a large shady tree on a beautiful warm sunny day. Everything about this day is wonderful... There's a comfortable breeze blowing and everything is just the way you like it... You're here by yourself enjoying this relaxation with absolutely no distractions...

Not only is this a wonderfully relaxing place it's also a magical place... It's a place where your desires become reality through your imagination... As you imagine things from this magical hammock you immediately begin to attract them to your life...

While you are laying there on this comfortable hammock take a moment to think about what it is you truly want in your life in reference to abundance...

If you could list something you'd like to have happen to you that could enhance your life financially... or simply for the better what would it be?...

Take a moment to think of what comes to mind... I'd like you to imagine right now that it has already happened to you...

So, take a moment right now to imagine in detail what it is you'd like to attract to your life... It can be money, opportunity, appreciation or anything that would benefit you...

Get it clear in your mind and imagine that you already have it or it has already happened to you...

Imagine how great it feels to have accomplished this... Describe to yourself quietly how it feels now that you've attained this goal... How has it benefited you?

Think about your accomplishment, the way you feel about it and show gratitude right now that you've become successful even if it's in your imagination... The important thing to understand is that your subconscious mind doesn't understand the difference between a real or imagined accomplishment. They hold the same value, and fire the same emotions.

Continue to keep this imagined accomplishment in your mind as if it's already happened... even when you open your eyes... allow this feeling of gratitude to stay with you as your mind continues to attract this abundance to you as you continue your day.
