

## **Attracting Abundance through Gratitude**

*By Rene Bastarache, CI*

When focusing on gratitude you can “only” attract more of what you’re grateful for. You cannot attract the lack of wealth or health while focusing on the positive benefits of them. Like attracts like and this script is designed to attract gratitude.

### **Script Begins Here:**

One of the best features of our thought process is that we always attract what we focus on... We attract the results of our positive thoughts as well as the negative ones... Therefore, it's important to only focus on the positive thoughts...

When good things come to us, the more grateful we become ... and the more you focus your mind on this gratitude, the more rapidly it will arrive...

When focusing on what you’re grateful for, you’ll always surround yourself with more of what you’re focusing on... By focusing on the best ... things will continue to get better for you...

We are thinking beings... and this creative power always attracts what you truly desire... thoughts of gratitude ensure that you’re only attracting positive into your life...

The grateful mind continually expects good things... and with this great expectation comes the excitement of new things to come... The emotion of this excitement helps accelerate your positive desires bringing even more of what you want into your life... It is a form of self-feeding frenzy...

So, continue to feed this habit of being grateful for every good thing that comes to you.... Only focus on the positive ... Give thanks continually and you’ll be rewarded accordingly...

In addition to being thankful for the good things that happen in your life ... also be grateful for the people in your life... especially those in any type of authority or management roles that have the ability to shape your success or direction... Be grateful to them...

Being grateful to them will create a harmonious relationship between you and them and will bring more of everything good towards you as a reward...

Being grateful is the quickest way to enhance your life... It's the highest frequency of all emotions... It duplicates itself and spreads to all who participate in it...
