

Shifting Your Mental Money Paradigm

By Rene Bastarache, CI

NOTE: You're always attracting the focus of your subconscious programming. This is the programming that you accumulated throughout your life that is running through your head when you're not consciously thinking. This script will help you to change your present subconscious money programming to come in line with what you actually want consciously.

SCRIPT STARTS HERE

You're here today because you want to be successful... and the way you going to be successful right now is by simply relaxing... listening to what I'm saying... and using your imagination to help you focus on your desires...

You are here to make a radical change in your paradigm where it comes to success... A paradigm is your subconscious programming... It's how you truly feel about things... and from this moment forward you are money motivated...

You realize that you deserve money... It's your birthright... It's natural to be happy and this is something that can help you to be even happier... to be able to have the best things in life... and to be able to help others to have better lives as well...

Being wealthy is the noblest of all causes... Being wealthy helps you to spend more time focused on what you want to do with your life... to give you more time to help others to have happier lives... It will also give you more time to focus inward on what's truly important in life...

Right now, I want you to embrace your power as a creator... Realize that you create your own destiny... You create what you want simply by focusing on it... and you realize that what you want is to be wealthy... to have a happier and more meaningful life than you had before...

You want to create a better world for you... your loved ones and those around you... and you are doing it now simply by relaxing... listening to these words... and imagining what you truly want in life...

You are the best version of you that you can be... You always give 100% to everything that you do... and you continually seek to do better in every moment...

You love yourself... and because you love yourself you love your abilities... and you love that you have the ability of creating exactly what you want in life... You love others as well... and you want to help others when you can... and you realize that having more wealth will assist you in doing this... You deserve this... It is very important to you...

From this moment forward you realize that there are only positive results and outcomes that come from being wealthy... that you are in control of your mind and create what you want... by focusing on it... Your new mindset is one of attracting wealth... realizing that it is your birthright... You deserve it... and it is your new focus...
